

NLPD Public Alert – Counterfeit Bills

The City of New London Police Department would like to alert residents and businesses of a rash of counterfeit bill discoveries in the greater New London area.

Various denominations have been found by both merchants and citizens. Five's, Ten's and Twenty's should be carefully inspected by merchants upon payment for goods and services and by customers upon receipt of change following a transaction.

If anyone has information as to the source of these bills or is in possession of counterfeit currency, they are encouraged to call their local police department. The New London Police can be reached at (860) 447-5269.

Detailed information on detecting counterfeit money is available at:
